SUMMARY

Full Stack Developer and Computer Science undergraduate with experience in designing and developing scalable web applications. Skilled in front-end development, RESTful API integration, cloud computing, and secure application architecture. Strong analytical and problem-solving abilities with a focus on clean, maintainable code and performance optimization.

EDUCATION

Vellore Institute of Technology (VIT), Chennai	Chennai, India
Bachelor of Technology in Computer Science and Engineering	2022 – Present
Narayana Olympiad School (CBSE)	Chennai, India
Higher Secondary Certificate (Class XII)	2022
Percentage: 70%	

WORK EXPERIENCE

Web Developer Intern — Infodazz	June 2025 – July 2025
- Developed scalable and SEO-optimized web applications using Next.js and Tailwind CSS. - Designed and implemented a matrimony web platform with secure user authentication and profile management. - Integrated RESTful APIs and managed application state using React Hooks. - Implemented responsive design and front-end performance optimization techniques. - Deployed applications on cloud platforms and configured CI/CD pipelines.	

PROJECTS

AWS-Based Ride Booking Web Application	June 2025
- Designed and deployed a cloud-based ride booking system using AWS Lambda, API Gateway, S3, RDS, and IAM. - Implemented real-time booking functionality using serverless, event-driven workflows. - Improved scalability and reliability using cloud-native architectural best practices.	
A* Pathfinding Algorithm Visualizer	May 2025
- Developed a web-based visualization tool for the A* pathfinding algorithm using HTML, CSS, and JavaScript. - Implemented heuristic-based shortest path computation with real-time obstacle handling. - Strengthened understanding of graph traversal algorithms through interactive simulations.	
Real-Time Face Detection and Emotion Analysis System	July 2025
- Built a real-time face detection and emotion analysis system using Python, OpenCV, and MediaPipe. - Refactored MediaPipe implementations for Python 3.12 compatibility. - Integrated Hugging Face Transformers for emotion classification with fallback handling. - Optimized real-time video processing pipelines for performance and accuracy.	

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL
Front End: HTML5, CSS3, React.js, Next.js, Tailwind CSS
Web Architecture: RESTful APIs, Client-Server Architecture, MVC
Databases: MySQL, AWS RDS
Cloud Platforms: AWS (EC2, S3, Lambda, API Gateway, IAM), Azure
Tools: Git, GitHub, Docker, VS Code, MySQL Workbench

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- IBM Web Development Fundamentals
- Advanced Software Engineering Virtual Experience – Walmart USA
- Software Engineering Job Simulation – Commonwealth Bank

EXTRACURRICULAR ACTIVITIES

- Club-level badminton player demonstrating discipline, teamwork, and competitiveness.
